Selected Coursework: Applied Stochastic Processes, Risk Management with Derivatives, Monetary
Economics, Economics of Poverty, Inequality and Income Distribution.
Final paper: *Education and Crime: Recent Evidence from Italian Provinces*, advisor Prof. M. Anelli.

WORKING PAPERS

**Reforming EU Electricity Market Design via PPAs, CfDs, and Long-Term Signals:
Evidence and Policy Options from Italy**, with F. Decarolis.
Submitted. Draft available upon request.

RESEARCH EXPERIENCE

BAFFI, Bocconi University, Research Assistant, PI: Prof. F. Decarolis *Feb. 2026 – Present*
RA for the Enel Foundation Chair in Competitiveness and Transition.
– Developed AI-based workflows to support economic research and policy analysis
– Collected and analyzed data on long-term contracting in electricity markets

Bocconi University, Research Assistant, PI: Prof. F. Decarolis *Sept. 2025 – Jan. 2026*
RA on policy work *Reforming EU Electricity Market Design: PPAs, CfDs, and Long-Term Signals
for a Renewable-Dominated System*, in collaboration with Enel Foundation.
– Reviewed literature on risk allocation and long-term contracting in electricity markets
– Analyzed risk-stacking properties of long-term contracts, framed as financial derivatives

RELEVANT SPORT EXPERIENCE

Bocconi Sailing Team, Yacht Sailor, RS21 class *Oct. 2024 – Present*
Multiple U23 national podiums. Advisor for the team selection process for the 2025-2026 season.

Club Vela Portocivitanova, ILCA and Yacht Sailor *Jan. 2015 – Sept. 2021*
Sailing in dinghies (Opti to ILCA 7), inshore, and offshore yacht racing, up to international regattas.

TECHNICAL SKILLS

Techniques: causal inference, time-series analysis, EIO-methods (e.g. BLP), predictive modeling, prompt engineering
Software: Microsoft package (ICDL full standard), Excel (expert, e.g. INDIRECT, LAMBDA, VBA), L^AT_EX
Programming languages: Python (good); Stata (fair); C++, R, Matlab (basic)
Libraries: pandas, statsmodels, SciPy, scikit-learn, seaborn, BeautifulSoup, huggingface

LANGUAGES

Italian (native), English (proficient, IELTS 8.0), French (basic, DELF A2), German (basic)

ADDITIONAL INFORMATION

General interests: quantitative approach to sports and games, finance, philosophy.
Previous academic results: Italian Astronomy Championships, National Final 2019. Excellence Award, Regione Marche (2021).
More sport-related info: passionate about science-based approaches to strength and conditioning for many years, studying the academic literature and practicing with other athletes. Recreational cyclist, intermediate weightlifter.
